

2021-2022

# ROADMAP

Q3

26.08.2021

**Alpha Product**  
Early version of the product for testing

21.09.2021

**Uploading to Testnet**  
Testing functionality

Q2

01.04.2022

**Integration IPFS Pinata**  
Providing decentralized storage and fast delivery of NFT-related media files

30.04.2022

**Integration Polygon**  
Faster and cheaper transactions, increased scalability of the platform, as well as the availability of users who already have experience with Polygon

30.06.2022

**Admin Dashboard**  
Monitoring the operation of the platform

Q4

28.10.2022

**Free Mint ETH**  
Free creation of new NFT tokens on the Ethereum blockchain. Useful for stimulating interest in the NFT marketplace and attracting new users

28.11.2022

**NFT Roulette**  
Allows users to win an NFT token at a random price and a random NFT value. Used to create an exciting gaming experience and attract more attention to the platform

06.12.2022

**Full Redesign Website**  
Improving the user experience and increasing the attractiveness of the platform

23.12.2022

**NFT Rain**  
Platform functionality (Distribution of NFT assets). Attracting new users and increasing activity on the platform. Giving away NFTs can be a motivation for users to join the platform and start buying, selling or creating their own NFTs.

Q3

Q1

Q2

Q3

Q4

Q1

12.01.2022

**MVP Product**  
Launching the main functions of the platform

24.01.2022

**Uploading to Mainnet**  
Uploading to the main Ethereum network

05.02.2022

**NFT Paid Promotion function**  
In order for users to increase the visibility of their NFT tokens on the platform

05.02.2022

**Import NFTs**  
Uploading existing NFTs to the marketplace without having to create them again

21.03.2022

**Migration to the AWS structure**  
Ensuring fast and efficient work with a large amount of data

3Q

29.07.2022

**NFT Rooms**  
Platform functionality (creation of a personal NFT company to promote assets)

06.08.2022

**FAQ Section**  
Answers to the most frequently asked questions

19.08.2022

**Promotion Module**  
Platform functionality (NFT promotion services)

25.08.2022

**Integration Binance Smart Chain**  
Sale and purchase of NFT using BSC tokens. This expands the capabilities of users and simplifies the processes associated with working on the platform

11.09.2022

**Activities Slider on Homepage**  
Tracking activity on the platform and getting information about new NFT tokens

28.09.2022

**UI/UX improvement**  
Improved design, better arrangement of elements, improved NFT search and filtering process

29.09.2022

**Integration ConnectWallet & Coinbase Wallet**  
Providing more convenient and fast access to users' wallets and simplifying the process of buying and selling NFT.

# ROADMAP

2023

1Q

1Q

27.01.2023

## Referral system

The ability for each user to generate a referral link + bonuses for the number of referrals

24.02.2023

## LootBox Functional

Allows the user to buy or create a set of NFT. Such functionality can be used to create additional demand for NFT and increase user interest in buying

28.03.2023

## External API

Communication of the platform with other external services, which allows to improve the functionality and usability of the platform for users

2Q

2Q

## LIVE update NFT tokens

Up-to-date information on sales, prices and availability of NFT

02.04.2023

## NFT Quick Listing function

Speeding up and simplifying the NFT sales process

2023

3Q

3Q

## Subscription + Likes systems

Notifications about new NFTs + mark those NFTs that users like - help in finding NFTs

2023

2023

## Application development in IOS

Expanding the audience of the platform

2023

## Push notifications

Notifying users about various events and activities on the platform

2023

## Notifications and system alerts on events

Informing users, notifications about changes in functionality and special events

2023

## The system of achievements in the account

Receiving bonuses and rewards for certain actions on the platform

4Q

4Q

## Chat system

Communication between users to discuss purchases and sales of NFT, as well as the exchange of experience and advice

2023

## Integration TON

To implement fast and secure transactions

2023

## Utility Token

Providing access to the platform's functions, receiving discounts on transaction fees

2023

## Integration Solana

Attracting an audience allows you to expand the availability of NFT for users using Solana blockchain

2023

## NFTsky Ecosystem Completed

Completion of the creation and development of the NFTsky ecosystem

2023
